

OVERVIEW OF FDP

The programme focuses on innovative teaching approaches and methods. It includes case studies, lectures, discussions, team exercises, videos, project demonstration, and faculty feedback. The programme offers a tremendous learning opportunity to the participants and helps them to gain the latest skills, strategies, and tools essential for effective teaching.

OUTLINE OF THE FDP

The main objective of this Faculty Development Program on "Redefining the Role of Teachers in Digital Era" is to improve the Faculty's teaching methods. And to make them aware of modern practices and tools for teaching. It provides an opportunity to acquire knowledge about current technological developments in relevant fields.

ABOUT THE ITM UNIVERSITY

ITM Group of Institutions established ITM University Raipur, Chhattisgarh in 2012 with Management & Engineering programs.

ITM group envisages a great learning opportunity for their students with well existing technological resources and guidance from Industry Experts and well-trained Faculties.

ITM further aims to provide industry relevant, product specific & process specific education to students, which will transform information into knowledge, making them efficient to enter the competitive world with explicit technical know-how and practical knowledge.
